

Social Impact Bond

Janette Powell
Reducing Reoffending Director

Who are Social Finance?

- Social Finance is an FSA regulated, nonprofit organisation formed with an overriding purpose – to connect investment with need in a way that supports social progress.

What is a Social Impact Bond?

- A Social Impact Bond is a contract with the public sector in which it commits to pay for improved social outcomes.
- On the back of this contract, investment is raised from socially-motivated investors.
- This investment is used to pay for a range of interventions to improve the social outcomes.
- The financial returns investors receive are dependent on the degree to which outcomes improve.

 Reduction in re-conviction

GPP FORUM 2011

The Peterborough pilot is funded by investment raised through a Social Impact Bond. Interventions are delivered by a number of providers, united under the brand “One” to provide a co-ordinated service to 3,000 short sentenced men released from HMP Peterborough.
